

What type of crack filler is KOLD FLO[®] crack filler?

KOLD-FLO crack filler is an asphalt emulsion based material modified with latex, additives and fillers. **KOLD-FLO** crack filler can be used on asphalt or concrete pavement.

Is mixing or heating required?

No! **KOLD-FLO** crack filler is ready-to-use right from the container. (If settling occurs from prolonged storage, nominal mixing may be necessary.)

What size containers is **KOLD-FLO** crack filler available in?

Kold Flo is packaged in 1-gallon bottles, 5-gallon pails and 55-gallon drums.

At what temperature can Kold Flo be applied?

KOLD-FLO crack filler can be applied when the ambient temperature is at least 50° F. It is best to crack fill in early spring or late fall, when the pavement cracks are near their widest point.

Is **KOLD-FLO** crack filler affected by freezing temperatures?

Yes! Freezing temperatures will destroy **KOLD-FLO** crack filler during storage or within 24 hours of application.

What size cracks can be filled with **KOLD-FLO** crack filler?

KOLD-FLO crack filler is designed to penetrate into cracks ranging from ¼" to 1" width and depth. The larger cracks may require a second application due to water evaporation during the curing process. Volume shrinkage of material in the crack may occur.

Does sand need to be added after application?

No! **KOLD-FLO** crack filler will surface cure between 15 to 30 minutes after application allowing for quick traffic access. Extreme cases of humidity may prolong curing up to 45 minutes. **KOLD-FLO** crack filler takes at least 8 hours to completely cure. Insufficient curing time (due to rain) may re-emulsify **KOLD-FLO** crack filler causing it to "wash out" of the cracks.

Can **KOLD-FLO** crack filler be seal coated over?

Yes! We recommend allowing **KOLD-FLO** crack filler to cure for 24 hours before seal coating over. Smaller cracks may be sealed over earlier, once **KOLD-FLO** crack filler has cured.

What is the shelf life of **KOLD-FLO** crack filler?

6 months minimum when stored properly.
